

## **20 March 2017 – EA Bargaining Update**

The negotiation process continued last week, with a bargaining meeting held on 14 March 2017. Curtin provided the NTEU with a financial update comprising the 2016 annual results and forecasts that return Curtin financial outcomes to a 5% underlying surplus by 2021.

The NTEU presented Curtin with an outline of a package of proposals for exploration at the next meeting. This package included items relating to superannuation, review committees and fixed-term employment provisions.

The bargaining parties will meet again on 21 March 2017.
